EDUCATION

Christopher Newport University — **Newport News, VA**
Bachelor of Science in Data Analytics and Finance — *Expected Aug. 2027*

- Relevant Coursework: Data Analytics, Statistical Analysis, Financial Modeling, Database Management

PROJECTS

S&P 500 Risk & Return Dashboard | R, SQLite, SQL, Tableau — **2026**

- Analyzed 10 years of S&P 500 price data for 500+ stocks, computing annualized returns, volatility, and Sharpe ratios via SQL window functions
- Routed data through a SQLite database and R for statistical wrangling before visualizing sector-level risk-return profiles in an interactive Tableau dashboard
- Designed multi-view dashboard enabling comparison of risk-adjusted returns across market sectors and individual equities

Electronics Sales Dashboard | Tableau — **2025**

- Analyzed nearly 49,000 global electronics sales transactions across 8 product categories to surface revenue, profit, and geographic trends
- Built 5 interactive Tableau visualizations covering sales trends, profit analysis, geographic distribution, and channel breakdown

Customer Churn Analysis | R, Statistical Modeling — **2026**

- Analyzed a dataset of 7,000 telecom customers to predict churn using a decision tree model in R, achieving 80% accuracy on validation data
- Identified contract type, tenure, and payment method as strongest churn predictors through binning and cross-table analysis across 11 features

Nationals Player Stats Analysis | Excel, Microsoft Access — **2025**

- Analyzed 2019 batting and pitching stats for 50 Washington Nationals players using Excel VLOOKUP, conditional formatting, and charting
- Built a relational Microsoft Access database with queries, forms, and reports to identify top performers across ERA, batting average, and RBI

EXPERIENCE

Trump National Golf Club — **Sterling, VA**
Golf Operations — *May 2025 – Aug. 2025*

- Tracked and reported daily equipment utilization data to ensure optimal cart and range asset availability
- Organized and maintained accurate records of member and guest golf bags, improving retrieval efficiency and service speed
- Monitored inventory of range equipment and supplies, flagging shortages to management before they impacted operations

DoorDash — **Newport News, VA**
Delivery Driver — *May 2022 – Present*

- Analyzed delivery routes in real time to minimize travel time, consistently achieving top-tier on-time delivery ratings
- Managed simultaneous multi-order deliveries, applying prioritization logic to balance accuracy and efficiency
- Maintained a high customer satisfaction score through data-driven time management and order accuracy

Ashby Ponds Senior Living Community — **Ashburn, VA**
Server / Food Runner — *May 2022 – Feb. 2023*

- Tracked and managed inventory levels across multiple supply categories, reducing shortages through proactive restocking
- Logged and resolved service issues in real time, contributing to consistently positive resident dining experiences
- Completed full kitchen safety training and maintained compliance with health and safety standards

CERTIFICATIONS & TRAINING

AI Concepts for Developers and Technology Professionals (Microsoft Learn) — **Oct. 2026**

- Completed 7-module path; key insight: RAG cuts wrong AI answers by pulling from current company data

Introduction to Cloud Infrastructure: Describe Cloud Concepts (Microsoft Learn) — **Oct. 2026**

- Completed 3-module path; key insight: cloud shifts IT costs from upfront CapEx to pay-as-you-go OpEx

TECHNICAL SKILLS

Languages & Tools: SQL, Tableau, Power BI, R, Microsoft Access, SQLite
Analytics: Statistical Analysis, Financial Analysis, Data Visualization, Dashboard Development, Predictive Modeling
Software: Microsoft Excel, Google Sheets, Microsoft Office 365, GitHub
Soft Skills: Communication, Problem Solving, Time Management, Customer Service, Inventory Management

ACTIVITIES & INTERESTS
